

Astronomy Lab Mini Homework

Name:

Email:

Section:

Why are you taking astronomy 110?

What is your field of study/major? If none, what do you think you want to study?

What is something interesting about yourself?

How many observatory sheets must you bring to campus observatory, and when is the last day of the first half to go?

Which situations below would be considered plagiarism?

1. A student quotes a sentence from a NASA website, citing the website
2. A student copies specific facts from the lab manual, without citing it
3. A student copies their whole writeup from a NASA website, citing the website
4. A student paraphrases information from a website, without citing it
5. A student states that sun is yellow, without stating a source
6. A student uses a fact from wikipedia, and cites it
